: Town Plan 21, JANIS 40 - Significant Electronic Research Establishments in Leningrad

25X1A

ENCLOSURES: Annotated photograph of NII 400.

REQUIREMENT HTA/SI/R76/56: Describe the NII 400 Electronic Research Institute in Leningrad. Include new buildings, construction activity, security facilities, railway sidings and radar or communications antenna on buildings or parked vehicles.

REMARKS:

The NII 400 Electronic Research Institute consists of a small complex of buildings located at 5 Naberezhnaya Fokina on the east bank of the Bol'shaya Nevka in Leningrad. The Leningrad Torpedo Plant No. 181 adjoins it on the east.

Comparison of [REDACTED] photography with that of World War II shows no change in the buildings or layout. Identification of radar or communications antenna is precluded by the scale and quality of the [REDACTED] photography.

25X1D

The only possible security facility identified is a fence between the Institute and the adjacent torpedo plant. The Institute is not served by rail. However, a street car line runs along Naberezhnaya Fokina, and facilities for barge service exist along the Bol'shaya Nevka.
